

## **McKinney First! Be Vocal. Buy Local.**

A program of the McKinney Chamber of Commerce in partnership with the McKinney Community Development Corporation and City of McKinney. It is a community effort to build awareness about our ability to support essential community services and economic and community development initiatives. Buying local also helps support local small businesses which make our community unique and help us attract visitors and new residents. Independent retailers create job opportunities in our community and give more support to community causes.
